

Primate Jackets and Needles

Rhesus Primate Jackets

Small Rhesus Primate Jacket

- Seven sizes for Rhesus primates
- Light padding at the neck opening and waist for comfort
- Velcro® closures ensure proper fit

These Jackets are double-layered, 100% polyester mesh which permits air circulation. The expandable back

panel has two zippers that secure the jacket. All the zippers can be secured by a clip to help prevent the animal from tampering with the jackets, which are double stitched for durability. Other jackets are available by special order.

CGS 8141.64	Jacket Pocket, 5.25 x 3.5 x 1.5 in, with 9 inch zipper

FastBreak Cannulas™

- Quick and easy insertion
- 3 sizes
- Color-coded

These splittable introducer cannulae are the ideal way to quickly and easily introduce a fluid line into an animal. Simply thread the line through the needle and introduce into the animal. Now pull back the needle by the butterfly wings

and split the needle in half to remove it from the line. It's that simple! Available in three color coded sizes for easy size recognition.

Catalog No.	Product
CGS 8142.64	FastBreak Cannulas™, 17 ga, red, 22 mm long, OD 1.50 mm, ID 1.34 mm
CGS 8143.64	FastBreak Cannulas™, 20 ga, green, 17 mm long, OD 0.95 mm, ID 0.75 mm
CGS 8144.64	FastBreak Cannulas™, 22 ga, blue, 17 mm long, OD 0.70 mm, ID 0.50 mm

Micro Injection Needles

- Reduces clotting & trauma
- Micro size is ideal for working with smaller species
- Provides greater volume control
- Stainless steel needle with 12° bevel point at tip

These Micro Injection Needles are ideal for portal vein, thymus, and bile duct injections. They can also be used for blood/fluid extractions. Their small size helps to reduce blood clotting and trauma at the injection site.

Catalog No.	Product
CGS 8145.64	Micro Injection Needle, 32 ga, straight, OD 0.009 mm x ID 0.003 mm, 10 mm long
CGS 8146.64	Micro Injection Needle, 32 ga, 45° angled, OD 0.009 mm x ID 0.003 mm, 10 mm long
CGS 8147.64	Plastic Syringe, 1 cc, for use with Micro Injection Needles, pkg of 10
