

Vertical Gel Units

Miniature Vertical Unit

Designed to provide a safe and easy to operate system for the separation of nucleic acids and proteins. This mini unit provides a basic non-cooled single gel system which can be used with any commercially available pre-cast gels. However, a special silicone rubber gasket is required for Biorad® precast gels. This gasket also allows the casting of gels using 'non-earred' or short glass plates, available as an accessory. The system comes complete with a set of float glass plates, spacers and a 12 sample comb. A wide range of alternative spacers and combs are also available.

This unit is supplied complete with 2 x 2 mm notched glass plates, 2 x 2 mm plain glass plates, 1 x set of 1.0 mm spacers, and 1 x comb 1.0 mm 12 sample.

Catalog No.	Product
CGS 8000.76	Mini Vertical Gel Unit
CGS 8001.76	Notched Glass Plates, 2 mm, pkg. of 2
CGS 8002.76	Plain Glass Plates, 2 mm, pkg. of 2
CGS 8003.76	Short Glass Plates, 2 mm, pkg. of 2
CGS 8004.76	0.75 mm Spacer Set, 12 x 103 mm (W x L)
CGS 8005.76	1.0 mm Spacer Set, 12 x 103 mm (W x L)
CGS 8006.76	1.5 mm Spacer Set, 12 x 103 mm (W x L)
CGS 8007.76	2.0 mm Spacer Set, 12 x 103 mm (W x L)
CGS 8008.76	Silicone Rubber Gasket
CGS 8009.76	Silicone Rubber Gasket for Biorad® Precast Gels
CGS 8010.76	Replacement 0.2 mm Platinum Electrode, 50 cm

- Ideal for nucleic acid and protein separation
- Compact size: 110 x 200 x 140 mm (W x L x H)
- Active gel dimensions: 80 x 85 mm (W x H)
- Wide range of combs available
- Easy gel pouring with Gel Casting System

Standard Single Plate Vertical Unit

Designed to provide a safe and easy to operate system for the separation of nucleic acids and proteins. The system provides a simple, non-cooled, single gel unit which comes complete with a set of float glass plates, spacers and a 24 sample comb. A wide range of alternative spacers and combs are also available.

This unit is supplied complete with 2 x 4 mm notched glass plates, 2 x 4 mm plain glass plates, 1 x set of 1.0 mm spacers, and 1 x comb 1.0 mm 24 sample.

- Ideal for nucleic acid and protein separation
- Active gel dimensions: 165 x 175 mm (W x H)
- Wide range of combs available
- Easy gel pouring with Gel Casting System

Catalog No.	Product
CGS 8011.76	Single Vertical Gel Unit
CGS 8012.76	Notched glass plates, 4 mm, pkg. of 2
CGS 8013.76	Plain glass plates, 4 mm, pkg. of 2
CGS 8014.76	Dummy Plate
CGS 8015.76	0.75 mm Spacer Set, 20 x 200 mm (W x L)
CGS 8016.76	1.0 mm Spacer Set, 20 x 200 mm (W x L)
CGS 8017.76	1.5 mm Spacer Set, 20 x 200 mm (W x L)
CGS 8018.76	2.0 mm Spacer Set, 20 x 200 mm (W x L)
CGS 8019.76	Silicone Rubber Gasket
CGS 8020.76	Replacement 0.2 mm Platinum Electrode, 50 cm
