

Radiation Shields

Fixed 45° Angle Shields

Fixed 45° Angle Shields provide clear, non-distorted vision, reducing light images and shadows, especially when the user is in a standing position. They come in two sizes, small or large, with either a large flat base to provide

under bench protection, or a curved base, which fits conveniently over safety trays.

The small shields measure, H x W, 450 x 300 mm (17.7 x 11.8 in). They have a base measuring 300 x 300 mm (11.8 x 11.8 in). The large shields measure, H x W, 600 x 355 mm (23.6 x 14 in). They have a base measuring 355 x 300 mm (14 x 11.8 in).

Catalog No.	Product
CGS 8666.76	Beta Fixed 45° Angled Shield, Small, Flat Base
CGS 8667.76	Beta Fixed 45° Angled Shield, Small, Curved Base
CGS 8668.76	Gamma Fixed 45° Angled Shield, Small, Flat Base
CGS 8669.76	Gamma Fixed 45° Angled Shield, Small, Curved Base
CGS 8670.76	Beta Fixed 45° Angled Shield, Large, Flat Base
CGS 8671.76	Beta Fixed 45° Angled Shield, Large, Curved Base
CGS 8672.76	Gamma Fixed 45° Angled Shield, Large, Flat Base
CGS 8673.76	Gamma Fixed 45° Angled Shield, Large, Curved Base

Fixed 15° Angle Shields

Fixed 15° angle shields provide clear, non-distorted vision, reducing light images and shadows, especially when the user is in a sitting position. They come in two sizes, small or large. They are available with a choice of bases. Either large

flat base to provide under bench protection, or a curved base, which fits conveniently over safety trays.

Two shield sizes are available. The small shields measure, H x W, 450 x 300 mm (17.7 x 11.8 in). The large shields measure, H x W, 530 x 350 mm (20.9 x 13.8 in).

Adjustable 0° to 15° Angle Shields

- Easily adjustable to 15° angle
- May be oriented in wide or tall position

These shields are easily adjusted from an upright position, to having an angle of

15°, depending on the application required.

The standard 12 mm thick gamma shield can be used with 125I and a thicker 35 mm shield can be used with isotopes of higher energy. These shields measure 540 x 350 mm (21.25 x 13.8 in) and may be oriented in the wide or tall position as illustrated above.
