CGS 8690.76	Beta Base Plate
CGS 8691.76	Gamma Base Plate

Hourglass Shields

These 15° angled hourglass shape shields provide clear non-distorted vision, reducing light images and shadows. The curved sides provide the user with easier access to the central area behind the shield.

These shields are available in one size and measure, H x W, 450 x 300 mm (17.7 x 11.8 in). Select from either a large flat base to provide under bench protection, or a curved base, which fits conveniently over safety trays.

CGS 8687.76	Beta Hourglass Shield, Curved Base
CGS 8688.76	Gamma Hourglass Shield, Flat Base
CGS 8689.76	Gamma Hourglass Shield, Curved Base

Cabinet Workstation

A cabinet, which has two large side doors to provide easy access for the user, can be used as a fully enclosed workstation. The dimensions are such that a sizeable working space is provided, and the user's vision is un-

obstructed whether sitting or standing. A small cutout at the rear of the unit enables services to be used inside the cabinet. When not in use, the doors can be closed and the unit used to store radioactive materials. The cabinet has no base in order for it to be used on removable 5 mm thick acrylic base tray.

Cabinet Workstation
