

Pipetting Equipment

Safetypette
Pipette Filler

Safetypette Pipette Filler

- Comfortable and simple to use
- Precise pipetting control
- Robust and lightweight
- Compatible with blow-out pipettes
- Simple thumb button operation
- Autoclavable silicone pipette holder
- Supplied with integral 0.45 μm filter and colored pipette cones for safety color coding in white, mint, mauve, and pink

A simple yet controllable pipette filler, the new Safetypette is uniquely designed to give superior pipetting control to both left or right handed users. The lightweight Safetypette sits comfortably in the hand enabling smooth variable speed control in both aspirating and dispensing using 1 ml to 100 ml pipettes. Simply squeeze the silicone bulb using the thumb lever to control both the aspirate and dispense modes. A mini squeeze bulb is used to blow out pipettes.
