

## Ice Buckets

Igloo Standard

Igloo Extra Tuff

Igloo Magna

### ***Igloo Standard, Extra Tuff and Magna Ice Buckets***

A full range of inexpensive, fire retardant expanded polystyrene ice buckets designed for economical but effective storage of ice and dry ice.

- Select from three convenient models
- Stable and leak-proof
- Capacity of 3.5 liters or 10 liters

#### **Igloo Standard**

The Igloo Standard is supplied complete with lid. Hygienic disposable polystyrene inner liners are also available separately. Its external dimensions are, H x W x D, 200 x 200 x 190 mm (7.8 x 7.8 x 7.5 in). It weighs 114 g (4 oz). It has a capacity of 3.5 liters.

#### **Igloo Extra Tuff**

A specially treated Igloo Standard, the Igloo Extra Tuff, has a polystyrene outer coating which extends its life considerably. All dimensions, weight, and capacity are the same as listed above. It is supplied complete with a lid and inner liner.

#### **Igloo Magna**

A large capacity expanded polystyrene Igloo, the Igloo Magna, is identical in design to the Igloo Standard but with dimensions of, H x W x D, 300 x 300 x 275 mm (11.8 x 11.8 x 10.8 in). It is still lightweight at 307 g (10.8 oz). This cooler has a capacity of 10 liters.

CGS 8131.39	Igloo Magna with Lid, 10 liters
CGS 8132.39	Polystyrene Inner Liners for Igloo Standard and Extra Tuff Ice Buckets, pkg. of 5

### ***Igloo Cooler Ice Bucket***

The new Igloo Cooler Ice Bucket is specially designed to provide a rugged container for efficient thermal storage of ice and dry ice on the laboratory bench. The smooth, easy-to-clean, chemically resistant, white polystyrene body and lid have a 25 mm thick double insulated wall filled with expanded polystyrene foam. Each Igloo Cooler is made with four convenient support holes to accept your single channel pipettors. Ideal for laboratory use, the Igloo Cooler Ice Bucket is stable, leakproof and has a capacity of 3.5 liters. It has external dimensions of, H x W x D, 280 x 300 x 200 mm (11 x 11.8 x 7.8 in). A lid is available separately.

- Ideal for laboratory use
- Stable and leak-proof
- Capacity of 3.5 liters
