

Genie™ and High Intensity Surgical Lights

Genie™ Major O.R. Light

The Genie™ provides superior performance and incorporates the most desired features of all compact O.R. lights.

The Genie™ Major O.R. Light features a 56 cm (22 in) diameter lighthead and four 50 Watt halogen bulbs wired in parallel to assure continuous illumination. Each bulb is rated for 1,500 hours of life. The focus adjustment is on the center positioning handle. The light includes an hours-in-use meter, continuous dimming and a special compartment in the control panel for bulb and fuse storage. It is aesthetically designed with a smooth front surface for easy cleaning and convenient bulb changing mechanism. You have a choice of single or double ceiling mounts.

- 7,000 footcandles at 1 m, 4,400°K color temperature
- Removable, autoclavable handle accepts sterile covers
- Unique, easy bulb replacement and storage system; no tools necessary for bulb change
- Extra bulb, fuse, and sterile handle cover included with each unit
- 15 to 25 cm (6 to 10 in) spot size with maximum shadow reduction
- 360 degree limitless rotation around vertical axes
- Extremely lightweight and maneuverable
- Unique mounting system for maximum vertical movement and stability

Outpatient II/CoolSpot II Combination Lights

These high quality lights are offered in combination units with one each of the Outpatient II and the CoolSpot™ II. Select from either a fleximount ceiling mount or a Fastrac™ and Double Trolley.
