

Utility Lights, Reflectors and Bulb Packs

General Purpose Exam Lights

- Polished, dimpled reflector to increase spot intensity and uniformity
- Uses standard 100 watt bulb
- Castered, weighted base for mobility
- Made in the U.S.A.; 3-year warranty

Catalog No.	Product
CGS 8097.78	General Purpose Exam Light

Economy Floorstand 10 in. (25 cm) Reflector

- 2000 footcandles
- 2-way adjustability with gooseneck arm and height variation
- Equipped with 100 watt standard bulb
- Made in the U.S.A.; 3-year warranty

Catalog No.	Product
CGS 8098.78	Economy Floorstand 25 cm (10 in) with Casters

Utility Floorstand Spotlight

- 43 cm (17 in.) gooseneck for positioning light at any angle
- Adjustable center post for full flexibility
- Hospital grade plug
- Equipped with 80 watt bulb
- Made in the U.S.A.; 3-year warranty

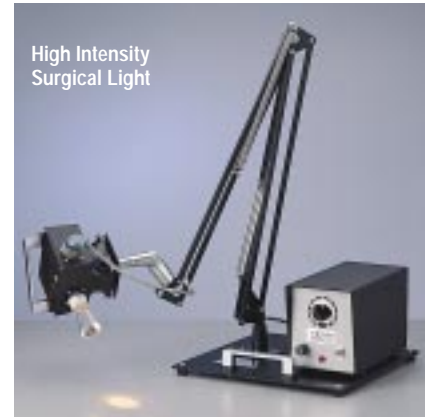

Catalog No.	Product
CGS 8099.78	Utility Floorstand Spotlight

Disposable Light Covers

- Saves time

Saves time by eliminating the need to autoclave handles and allows compliance with OSHA's standard for sterile procedures.

Catalog No.	Product
CGS 8100.78	SteriHandle, set of 25

High Intensity Surgical Light

- 1500 footcandles at 30.5 cm (12 in)

This is an excellent light source for performing surgery on small animals. The 250 watt quartz halogen Light with a prefocused lamp assembly provides cool, efficient illumination.

The high intensity lamp and reflector are powered by a low voltage power supply to permit a compact, rugged bulb filament, which approaches the ideal point of light source. The ellipsoidal reflector focuses the light onto a lens to create a concentrated light beam. Heat is dissipated, primarily at the light source, by an infrared absorbing filter and by the unit's powerful cooling fan. The light source measures, H x W x D, 12.1 x 12.7 x 13.7 cm (4-3/4 x 5 x 5-3/8 in).

Light intensity and beam direction are easily adjustable. The 91.4 cm (36 in) tri-jointed extension arm allows repositioning of the light source without changing the light direction. The entire Unit is completely portable. The base has rubber feet, measures 30.5 x 30.5 cm (12 x 12 in) and has a 1.8 m (6 ft) power cord.
